

Java Framework Installation Guide

STEP 1: -

➔ Download the Java Runtime Environment from the below link.

Link: - <http://www.oracle.com/technetwork/java/javase/downloads/jre8-downloads-2133155.html>

➔ First select **“Accept License Agreement”**, so that the option to download will be enabled on the below links.

➔ Before downloading, please check your Computer Operating System Version. (Example: - Windows 64 bit or 32 bit).

➔ Accordingly select the option and download the file.

Oracle Technology Network > Java > Java SE > Downloads

Overview Downloads Documentation Community Technologies Training

Java SE Runtime Environment 8 Downloads

Do you want to run Java™ programs, or do you want to develop Java programs? If you want to run Java programs, but not develop them, download the Java Runtime Environment, or JRE™.

If you want to develop applications for Java, download the Java Development Kit, or JDK™. The JDK includes the JRE, so you do not have to download both separately.

JRE 8u131 Checksum

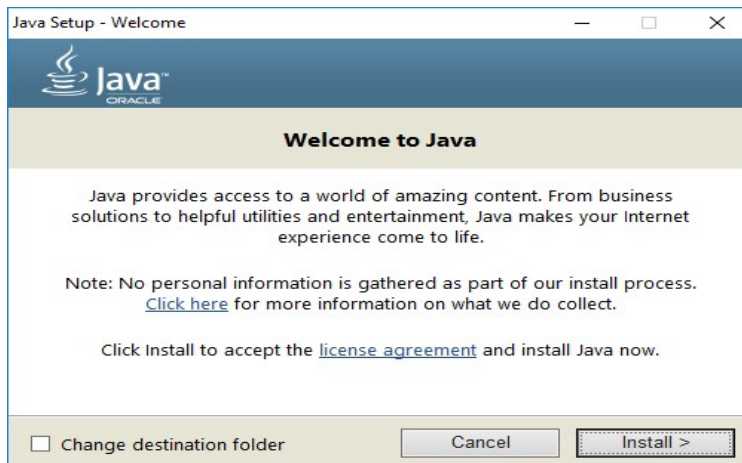

Java SE Runtime Environment 8u131
You must accept the Oracle Binary Code License Agreement for Java SE to download this software.

STEP 2: -

➔ Once the file is downloaded, double click on it and the below screen will appear.

→ Just Click on Install and the Java framework will be installed in your computer showing the below screen.

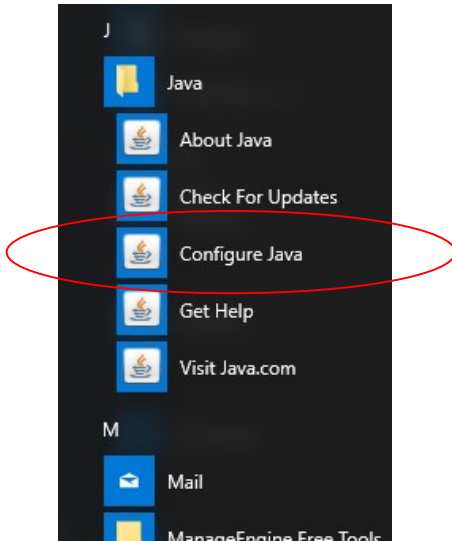

→ Once the installation is complete, the below appears showing that Installation is Successful.

Step – 3

To remove unwanted notifications, open **Configure Java** and disable the Automatic Updates Option.

Go To START => JAVA => CONFIGURE JAVA

Once the CONFIGURE JAVA is opened, navigate to **UPDATE** tab and uncheck the “Check for Updates Automatically” option.

After the setting is done, click on OK Button to save the changes and close the window.
